HOANG HUU THOM

Android Developer

+84 972 52 4570 - huuthom.it@gmail.com - linkedin.com/in/ryanhoang21/ - Ha Noi, Viet Nam

Career Objective

I am an Android Native Developer with 4 years of experience in Android Application Development, I have a strong foundation in Java, Kotlin, and Android SDK. Over the past 3 years, I have focused on developing Android Automotive applications. Currently, I'm working in Android TV domain (AOSP). My goal is to contribute my expertise in building high-quality, user-centric mobile applications while continuously learning new technologies to stay at the forefront of Android development.

Experience

MIDDLE SOFTWARE ENGINEERING, CMC GLOBAL *Jan 2026 – Present*

- Participated in the development project custom Android TV(STB) for customers
- Technical skills: AOSP, Java & Kotlin, AIDL, Jenskin, custom Launcher/SystemUI...
- Soft skills: Teamwork, communication with customer, manage tasks, ...

SOFTWARE ENGINEER, FPT AUTOMOTIVE *Jan 2024 – Jan 2026*

- Participated in the development project Android-based AVN application layer for luxury vehicles.
- Technical skills: Android Automotive, Java & Kotlin, AOSP, Jetpack Compose, Unit Testing & UI Testing, Optimize performance, Soong build, SE Linux, design document (SAD, SDD), ...
- Soft skills: Teamwork, presentation, communication with customer, ...

ANDROID DEVELOPER, FPT SOFTWARE *Sep 2022 – Jan 2024*

- Participated in the development project Android Native for Social and Finance.
- Technical skills: Android Native, Java & Kotlin, XML, Coroutine, Firebase, ...
- Soft skills: Teamwork, presentation, communication with customer, ...

Education

FPT SOFTWARE ACADEMY, Duy Tan, Ha Noi *Sep 2022 – Nov 2022*

- Participate in learning and training the basic knowledge of developing on Android (Java, Kotlin, Android Basic, Android Advanced), manage code with GitLab,
- Soft skills: Email writing, CV writing, Interview skill, teamwork, TOEIC, ...

ACADEMY OF CRYPTOGRAPHY TECHNIQUE, Chien Thang, Ha Noi *Aug 2019 – Aug 2024*

Software Engineering – GPA 3.1

- Majoring in mobile and embedded programming.

Technical Skills

- Android programming with native language (Java/Kotlin).
- Building app UI with Jetpack Compose/XML.
- Familiarity with MVVM/MVI architecture patterns, Android app architecture, optimize performance.
- Knowledge and use of databases: SQLite, Room, Firebase, MySQL.
- Experience with Automotive development(AAOS), Android TV(AOSP), Unit Testing & UI Testing, AIDL, SE Linux, Soong build.
- Experienced in asynchronous processing (Coroutine, RxJava).
- Document design (SAD/SDD) with Enterprise Architect.
- Using Web service for Android App with PHP, MySQL, Restful API, handle JSON.

Additional Skills

- English: Read and understand documents written in English about the subject. Basic English communication.
- Manager task with Jira.
- Understood Software Development Life Cycle (Waterfall, Agile, V-Model).
- Repository: Git/Github, Gerrit, Bitbucket.
- OS: Window, Linux (Ubuntu).
- Presentation skill, teamwork.
- Search and solve problems with Google search, ChatGPT, StackOverFlow.
- Others: JSON/GSON, Arduino, Proteus, UML.

Certificates

- Android certified application developer AND-X01: androidatc.com/transcript
- Java basic certificate by HackerRank: www.hackerrank.com/certificates
- Android Application Development certificate: www.linkedin.com/posts/certificate
- TOEIC – 730 Total
